

Start the journey to **OUTPERFORMANCE**

Working With the Standard Program

Investors in People Philippines have made it easy for any organization to start their journey towards becoming high performing – which means ‘outperforming’ your competitors or peer group.

Our “Working with Investors in People” Community membership gives you immediate access to a workshop on how to use Investor in People in your organization, free learning events that explore good practices and review meetings to help you to implement your IIP action plan and people strategy. Your route map will depend on you, but an approach that has worked for many organizations follows this path.
