## **Creating a People Strategy Workshop**

This half day workshop is designed for organizations who have joined, or are interested in joining, the 'working with Investors in People' program. It will also be useful for organizations who are already accredited who would like to review and improve their people strategy.

It is ideal for HR professionals or other senior managers.

The main purpose of the workshop is to provide the technology for creating a people strategy and

plan that links people management processes and business priorities. The model follows a five step process. Participants learn how to apply the model to their own organisation. For those who plan to go on to achieve accreditation this is the route map for getting there. For those who just want to use the Standard without becoming accredited it is the basis of a continuous improvement process, and ensuring strategic HR in your organisation.

It includes a refresher on the main themes and processes underlying the Investors in People Standard.

Date and time: Friday 9th May 2014. 1.30pm – 5.30pm

Location: Investors in People Philippines. 15f PCCI Building, 1030 Campus Avenue, McKinley Hill Town Centre, Fort Bonifacio.
